A LITTLE VOW

This year is mine. I move at my own pace, step by step — and I don't quit halfway.

WELCOME

Your *year*, organized

University isn't hard because of the material — it's hard because of the chaos: deadlines, sign-ups, midterms, registrations. This planner turns that chaos into order, so you can save your focus for what matters.

Order brings calm, calm brings focus

HOW TO USE IT

Fill in your deadlines and schedule at the start, plan each week ahead, track your habits. When you're stuck — ask MathIA.
